RECYCLING SERVICE

OLD GOLD RECYCLING SERVICE

SA Bullion Gold Buyers will purchase your old gold products and settle by real-time electronic funds transfer (EFT) at time of exchange. The firm takes in actual gold products such as coins, medals, jewellery and sculptures where the gold has been lawfully beneficiated (legally termed “wrought gold”).

With SA Bullion there are no surprises. SA Bullion will pay you a pre-disclosed price per gram of gold (excluding other metals in an alloy) dependant on the prevailing gold price. This means that the gold purity and the mass of each of your gold products must be determined. With that information the value of your gold is calculated and you are invited to witness every part of the process.

The company accumulates old gold into substantial batches which it then sells at a small mark-up to contracted precious metals refineries that have met all necessary legal compliance criteria.

When you deal with SA Bullion Gold Buyers (Pty) Ltd you have no further administrative or regulatory obligations after leaving the SA Bullion office. The matter is closed, all parties are better off, and the planet has benefitted a little.

Our over-crowded world is suffering from excessive consumer demand and the planet is suffering from over-exploitation of resources.

Future sustainability will be greatly affected by what each of us can do in the areas of Reduce, Re-use and Recycle.

At SA Bullion we have a commercial initiative to play a role in sustainability. It revolves around working with you and your unwanted old gold.

SA Bullion Gold Buyers (Pty) Ltd has a singular purpose. It's mission is to buy your unwanted gold, get that gold recycled back into the system, and have each party and the economy benefit financially, and the planet benefit environmentally.
